Meted<sup>®</sup> 3% & 5% w/w Shampoo (salicylic acid & sulphur)

**What is Meted?** Meted is a shampoo used to treat seborrhoeic dermatitis, scalp psoriasis and dandruff. It helps to reduce scalp itching, irritation, redness, flaking and scaling and is a mild antiseptic. Meted is used to lift the dandruff flakes from the scalp and help to control the micro-organisms thought to cause dandruff. Meted also contains Panthenol, a conditioner that leaves hair manageable after washing. The active ingredients are salicylic acid and sulphur. Other ingredients are: sodium laureth sulphate, sodium cocoyl sarcosinate, cocamidopropyl betaine, hypromellose, magnesium aluminium silicate, panthenol, fragrance and water.

**How to use Meted:** Shake bottle before use. Massage Meted into wet hair and scalp. Lather, rinse and repeat. Use at least twice a week, or as directed by your doctor. Suitable for adults and children. Do not allow Meted to come into contact with the eyes; if it does, rinse thoroughly with water. Meted may cause skin irritation and redness in some people. Do not use this product if you know you are allergic (hypersensitive) to salicylic acid (aspirin), sulphur or any of the ingredients of Meted. Using too much of this medicine or using it for too long may mean your body absorbs too much salicylic acid (salicylism), the symptoms include ringing in the ears, feeling or being sick. If this occurs, or you notice any other symptoms, stop using Meted and consult your doctor. If your

condition does not improve, gets worse, or if you notice any other side effects, consult your doctor or pharmacist.

Do not store above 30°C. Do not use after the expiry date printed on the base. The expiry date refers to the last day of that month after EXP.
